

FAZAL-E-HAQ

Software Developer

PROFILE

I'm a Flutter developer with medium-level experience in Flutter, Firebase, animations, and APIs.

I can design UIs in Figma and turn them into real apps using Flutter.

I'm a fast learner who enjoys building smooth and responsive apps for mobile and web. I like learning new things and making good mobile and web apps.

PROJECTS

Nuko web (Flutter + Animation)

- Periodic table website, featuring smooth UI and category-based element info.

Weather App (Flutter + API)

- Real-time weather app using REST API with responsive design and clean layout.

Collage Managemant App (Flutter + Firebase)

- Firebase-based CMS with login, Firestore database, and data management features.

Collage Managemant UI (Figma)

- Designed a responsive CMS interface with modern structure and color harmony.
-

EDUCATION

Collage

2023 - 2026

D.A.E in Computer Information Technology
