- **Language:** Dart
- **Framework:** Flutter
- **Backend & Database:** Firebase, Cloud Firestore, Isar Database
- **State Management:** Provider
- **APIs & Networking:** REST APIs, Postman, JSON parsing
- **Tools:** Android Studio, Antigravity, Git/GitHub
- **UI/UX:** Figma, Canva, Responsive UI, Material Design

EDUCATION

- Diploma of CIT | Rawalpindi Polytechnic Institute 2023-2026
- Matric (Science) | Govt New Islamia High School 2022-2023

EXPERIENCE

- **Flutter Developer Intern (Remote) | Neuro App** [certificate ↗](#)
Dec 2025 – Jun 2026

Completed a remote internship developing cross-platform mobile applications using Flutter with Firebase and Google Maps API integration along with other API integrations. Worked on responsive UI development, state management, shared preferences, app testing, and performance optimization through weekly assigned tasks in an iterative development workflow.

PROJECTS

- **Cut Count** [source code ↗](#)
Developed an offline barber shop management application using **Flutter, Dart, and local storage**, enabling customer record management, daily earnings tracking, and service history maintenance through a responsive user interface.
- **O News** [design ↗](#)
Designed a modern mobile news app concept focused on educational, science, technology, and health content, featuring a clean and engaging UI/UX without political or entertainment-based news.
