PROFESSIONAL EXPERIENCE

Flutter Developer Intern | **Neuro App (Remote)** | Jan 2026 – Jun 2026 | **Internship Certificate**

- Engineered responsive cross-platform mobile UI modules for Android and iOS using Flutter/Dart in an Agile environment.
- Integrated Firebase Auth, Cloud Firestore, and RESTful APIs with structured JSON parsing for real-time synchronization.
- Architected state management using Provider to decouple business logic from UI views, improving screen transitions.
- Implemented client caching via Shared Preferences, asset management, and Google Maps API features.

PROJECTS

CutCount – Barbershop & Daily Earnings Management App | **GitHub Source Code**

- Developed an offline-first bookkeeping app using Flutter and Isar Database with local CRUD pipelines for 100% offline reliability.
- Implemented interactive revenue charts using fl_chart and optimized transaction logs with Flutter Slivers for dynamic loading.
- Designed UI/UX wireframes and prototypes in Figma featuring custom service pricing workflows and adaptive theme support.

CopyFlutter – Flutter Web Component Library & Showcase | **Live Web App**

- Developed a web platform for Flutter developers to preview and integrate reusable UI components using Flutter Web and GetX.
- Integrated Firebase Auth and Cloud Firestore for backend data sync, identity management, and user interaction analytics.
- Set up automated web deployment using Firebase Hosting alongside Google Search Console integration for SEO performance.
