SKILLS

- **Languages:** Dart
- **Frameworks:** Flutter
- **Backend & Database:** Firebase, Firebase Authentication, Cloud Firestore, Isar, Supabase
- **State Management:** Provider, GetX
- **APIs & Networking:** REST APIs, Google Maps API, JSON Parsing, Postman
- **Developer Tools:** Android Studio, Antigravity, Git, GitHub
- **UI/UX:** Responsive UI, Material Design, Figma, Canva

EXPERIENCE

- **Flutter Developer Intern (Remote) | Neuro App**

[Certificate ↗](#)

Jan 2026 – Jun 2026

Developed cross-platform mobile applications using Flutter and Dart, integrating Firebase, Firebase Authentication, Cloud Firestore, Google Maps API, and REST APIs to build responsive and feature-rich applications.

Implemented responsive UI, Provider state management, Shared Preferences, image handling, application testing, and performance optimization while completing weekly development tasks in a remote Agile development environment.

PROJECTS

- **CutCount**

[Source Code ↗](#)

Developed an offline-first barber shop management application using Flutter, Dart, Isar, Provider, and Shared Preferences, enabling service management, earnings tracking, and business analytics through a responsive mobile interface.

Implemented high-performance lazy loading with Slivers, interactive charts using fl_chart, and a scalable architecture to deliver a smooth and responsive user experience.

EDUCATION

- Diploma of CIT | Rawalpindi Polytechnic Institute 2023 – 2026
- Matric (Science) | Govt. New Islamia High School 2022 – 2023
